

CE,ISO9001,BV 600kg/h PLC Operating System Commercial Gummy Candy Maker

Specifications :

Payment Terms	L/C T/T Western Union
Keyword	commercial gummy candy maker,gummy manufacturing equipment,gummy bear manufacturing equipment,gummy making machine

Detail Introduction :

Commercial Gummy Candy Maker

Gummy Manufacturing Equipment is manufactured following food standards, integrating machine, electricity, and gas, with a compact shape and tight structure; good operability; easy to adjust and control pouring volume and speed; signal control system, easy to adjust and operate. With wide use and complete functions, it is loved by many new and old customers.

Composition and function of Gummy Machine.

Composition and function of Gummy Machine	According to the market demand for a variety of colors, shapes, and flavors of fondant, it is manufactured with advanced production technology.
	It can produce high-quality single-color and two-color gummy bears, and it can also produce high-quality, multi-shape, and multi-color gummy bears by changing molds or pouring heads.
	The quantitative filling and mixing of flavors, colors, and acids are done online.

The highly automated production not only produces stable quality gummy bears but also saves labor and space, thus reducing production costs.

Detail of Gummy Bear Candy Machine:

Detail of Gummy Bear Candy Machine.

Gummy Bear Candy Machine	Gummy Bear Candy Machine is easy to operate and quick to heat up.
Cooler conveyor unit	The cooler conveyor unit is compact. High and stable movement speed.
Sugarcoating machines	Sugarcoating machines can be coated with oil and sugar, and there is no dead corner inside the barrel, which is hygienic and easy to clean.

Difference between Gummy Machine and traditional production method.

Difference between Gummy Machine and traditional production method.

Way	Traditional way	Gummy Machine
Control system	Semi-mechanical semi-manual	PLC automatic control system

Efficiency	Low production efficiency. High labor requirement. High energy consumption. Serious material waste.	High production efficiency. Mixing of gummy bear-making materials is done online, saving labor costs. Low energy consumption. Fully automatic system, reduce the material waste caused by manual labor.
Temperature	High-temperature contamination. Inaccurate temperature control. Material waste increases cost.	Precise control of the temperature is needed to make gummy bears. Cost-saving.

Gummy Manufacturing Machine not only produces consistent quality gummy bears but also saves labor and space, thus reducing production costs.

Gummy Bear Candy Maker Service Promise.

1. After delivery, free of charge, we will provide a person responsible for guiding the installation and commissioning.
2. Free warranty for one year, within the warranty period, parts replacement and repair are provided free of charge. Except for abnormal damage.
3. Outside the warranty period, the cost of replacement parts is calculated according to the cost of material procurement.
4. If a failure occurs during use, the user should cut off the power and notify us verbally or in writing, and we will submit a solution within 24 hours after receiving the notification.
5. We have sufficient spare parts to provide at any time when you need them.

Commercial Gummy Candy Maker, to develop and manufacture the most suitable Gummy Machine for you, employs the most professional technicians, always pays attention to the market changes, closely follows the technology and industry development characteristics in machinery, and constantly optimizes the technical means to meet your needs. You can choose us with confidence, and we look forward to your call!
